Please specify which duty/duties you suspect is/are not being complied with by ticking the appropriate box(es) and providing details. Crofting duties are defined in the Crofting Act and reports of suspected non-compliance must relate to a specific duty in this context. Information on crofters duties is available on our website.

Please provide as much information as possible. Whilst we encourage the submission of photographs, particularly relating to a breach of the duty not to misuse or neglect the croft, please be aware that under Data Protection legislation we cannot accept photographs where a person(s) can be identified from it. This means details of an individual that can be identified from the data directly, or indirectly identified in combination with other information. This includes images of individuals, children, groups etc, car registration numbers, house numbers/names and location data.

- **Residency** – Both crofters and owner-occupier crofters are required to be ordinarily resident on, or within 32 kilometers (20 miles) of, their croft (as the crow flies).
**Cultivate** – Crofters and owner-occupier crofters must cultivate their croft or put it to some other purposeful use. ‘Cultivate’ includes “the use of a croft for horticulture or for any purpose of husbandry, including keeping or breeding of livestock, poultry or bees, the growing of fruit, vegetables and the like and the planting of trees and use of the land as woodlands”. ‘Purposeful use' means any planned and managed use which does not adversely affect the croft; the public interest; the interests of the landlord, or the use of adjacent land.

**Maintain** – To enable the croft to be cultivated it must be kept in a fit state, except where another purposeful use is incompatible with the croft being kept in such a state.
- **Misuse** – is where a crofter (or owner-occupier crofter) wilfully and knowingly uses the croft for a purpose other than for cultivation or another purposeful use, or where the croft is put to no such use.

- **Neglect** – is where a crofter (or owner-occupier crofter) does not manage the croft so as to meet the standards of good agricultural and environmental condition (GAEC).
